Entered as second class matter April 7, 1910, at the post-office at West Liberty, Ky., under the Act of March 3, 1879.

TERMS—One Dollar a year in advance.

COTTLE & SWIFT,  
PUBLISHERS.

All communications should be addressed to the Editor.

We are authorized to announce Geo. W. Stacy, of Grassy Creek, as a candidate for the nomination for JAILER of Morgan County, subject to the action of the Democrat party.

All praise to the town board: Our streets are in better condition at this time than they have been at any time for five years. Wonder if the Courier's suggestions made some weeks ago had anything to do with it? It don't matter: Hurrah for the Board anyhow.

Have you seen the Democratic platform? It's O. K. Nothing objectionable about it. Clean, progressive, comprehensive. Not a single splinter parloined from the Republicans as charged by Congressman Langley. It's all our own and we are proud of it. Upon it we can go before the voters of Kentucky, irrespective of politics, and ask their suffrage. Upon it the Democratic nominees will win an overwhelming majority in November.

We are told that Elder Tinsley, of Louisville, is conducting a very successful and satisfactory revival at the Christian church and of the fact we can honestly and truthfully say we are proud. Circumstances and conditions for which we are now responsible forbid attending these meetings and rob us of a pleasure that once was ours, but if, as we have been told, the meeting is a success and devoid of narrowness, prejudice, and vindictiveness toward those who are not of the household of faith (so called) as is frequently the case, we bid Rev. Tinsley Godspeed and wish him the fullest measure of success. It is high time the church was breaking away from its hide-bound orthodoxy and we have every reason to hope and believe that Elder Tinsley is no slave to dogmatism.

Morgan county now has a chance to get an Agricultural Experiment Station.

Think what that would mean to the agricultural interests of the county. A 300 acre farm devoted to scientific farming and managed by practical farmers who have the advantage of being graduates from agricultural colleges.

The time is coming, is now here, in fact, when the farmer who does not apply scientific principles and up-to-date methods to his work will be compelled to quit the business and make way for his more progressive brother.

Come out to the Farmer's Institute Sept. 1 and 2 and hear these matters discussed.

The West Liberty Supply Co. has in addition to its regular line installed a planing mill, an edger, a grist mill and a blacksmith shop, which are run in connection with its other business. The engine which furnishes the

power for this machinery is run by natural gas and is a marvel of simplicity, and everything is so conveniently arranged that it requires a very small force of hands to do the entire work.

People needing lumber for building purposes can now get it cut into any desired width, planed, tongued and grooved at a reasonable price and on short notice.

This is a great convenience to the people of West Liberty and surrounding country and will be quite a stimulus to building operations.

The promoters of this enterprise deserve great credit and should have the cooperation of every progressive citizen in the community.

Last week we received an unsigned communication from Alice, Ky., concerning a very good friend of ours and we would be glad to publish it if the writer had signed his name, but it is positively against publisher's rules to publish anonymous communications. We have no clue as to the identity of the writer of this article nor do we know whether or not the person about whom it is written would want it published.

Georgetown, Ill., Aug. 20, '11. Prof. D. V. Florence, West Liberty, Ky.,

Dear Sir:—

I understand you have returned to West Liberty for the purpose of teaching school again this year. Glad to know you have the position for this year; am sure they could not have bettered it by getting some one else, for you sure gave satisfaction last year. I have come to Illinois for the purpose of making it my home. Have been employed in the Georgetown College—my work will be the 7th grade, so there will be 14 teachers for this year. They have nine months school, which opens Sept. 5th.

I have taken the examination in Ill., made it O. K. So you do not have to take the examination here but once. My certificate is good as long as I want to teach here, and I guess that will be a long time.

I was beaten out of my school in Ky., this year by a lot of drunkards—so I find education reaches further than Kentucky.

OLLIE HOWERTON.

Kill More Than Wild Beasts.

The number of people killed yearly by wild beasts don't approach the vast number killed by disease germs. No life is safe from their attacks. They're in air, water, dust and even food. But grand protection is afforded by Electric Bittes, which destroy and expel these deadly disease germs from the system. That's why chills, fever and ague, all malarial and many blood diseases yield promptly to this wonderful blood purifier. Try them and enjoy the glorious health and new strength they will give you. Money back if not satisfied. Only 50c. at all druggists.

# \$100 REWARD. \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh of the bladder. Catarrh of the bladder is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer one hundred dollars for any case it fails to cure. Send for list of testimonials.

Address F. J. Cheney & Co., Toledo, O. Sold by all druggists. Take Hall's Family Pills for constipation, 56.

## Popular Preacher Dies.

On last Sunday while attending church at William's creek, Rev. R. C. Maxey was taken suddenly ill and removed to the home of Leander Williams, which is near by. He revived somewhat and it was hoped by his friends that the attack would not prove serious, but about two o'clock p. m., he became suddenly worse and within a few minutes was a corpse. Heart failure was the immediate cause of his death. He had been in poor health for some time and his friends had anticipated that the end would come in this manner.

Bro. Maxey was a prominent minister of the Christian church and was well known throughout Morgan and adjoining counties. He will be greatly missed in the community he has served so long. The Courier joins with the host of friends of the family in extending sympathy.

# POULTRY NOTES

Don't crowd your young chicks. The loft should be cleaned out every month, at least. Resolve to set no eggs this year from a weak, crippled, or ailing hen. Do not catch ducks by their legs. It is much safer to handle them by the necks.

Warm charred corn is fine for the liver, and sends biddies happy and warm to bed.

Have removable nests, not too many together, so you can dump them and fumigate when necessary. It is an unpleasant fact that much spraying is done badly; this means that much money is thrown away.

A good male bird is half the pen, and his influence on the entire progeny is very marked.

Keep the brooder perfectly clean, and always feed the chicks in a clean place if you want them to live and thrive.

Nests should be placed in any little sheltered corner and should be so made that they can be closed when needed.

Where plenty of nests are provided little trouble will be experienced with hunting eggs in the tall grass or with egg-eating hens.

Farmers who raise 150 to 200 chickens every season could raise double the number with half the labor by the use of incubators.

Artificial incubation has been reduced to such a science that it is comparatively an easy matter to hatch any number of chicks.

A Pennsylvania woman raised \$85 worth of young turkeys from three turkey hens last year, an unusual record, but what has been done, can be repeated.

Those who raise poultry on an extensive plan get better results and more profits by using the incubator than when dependence is placed solely on the hens.

A most excellent mixture for cleaning the henhouse is one of carbolic acid and whitewash. Paint all the interior with it, using an ounce of the acid to a pail of whitewash.

Learn How to Shake Hands. Few people know how to shake hands well; the general run of folk either give a limp paw and allow it to be shaken, or else grasp yours in theirs and nearly dislocate it with their violence.—London World.

## Grown Cautious.

Chatty Lodger (to landlord)—"You seem to have seen a good deal. What are you?" Landlord—"Well, sir, I were a lion tamer, and I'd be there now if I hadn't a married. But you see, my wife were a knife-thrower in the same show, and she got to practicing her turn on me. Well, thinks I, life ain't too long to run no risks, so I took on a safe job and become a stepladder."—Punch.

## In His Power.

"How effectively sweet that Mrs. Blondie is to you, Jonesey," said Withereil. "What's up? Any tender little romance there?" "No, indeed—why, that woman hates me," said Jonesey. "She doesn't show it," said Withereil. "No; but she knows I know how old she is—we were both born on the same day," said Jonesey, "and she's afraid I'll tell somebody."—Harper's Weekly.

## Married in Evening of Life.

Mr. James Thomas Wells, aged 73 was married at St. John's church, Ealing, England, the other day to Mrs. Emma Coster, aged 71. The couple were sweethearts in their youth, but their engagement was broken off. Each married and brought up a large family. They met again some time ago, and both being free, decided to marry.

## Fishermen's Superstition.

To mention the word "rabbits" on board a Cornish fishing smack arouses the ire of the crew. Should the hated word be uttered as the boat is leaving the harbor on a pilchard expedition, the speaker would stand a fair chance of being hauled overboard. The mere mention of "rabbits" destroys all chances of a "catch."—London Mail.

## Plant Feigns Death.

In South America there is a plant—species of mimosa—which feigns death for the purpose, naturalists think, of preventing grass-eating animals from eating it. In its natural state it is bright green, but as soon as it is touched it collapses into a tangle of apparently dead brown stems.

## ESCAPED WITH HIS LIFE.

"Twenty-one years ago I fled an awful death," writes B. B. Martin, Port Harrelson, S. C. "Doctors said I had Consumption and that dreadful cough I had looked like it, sure enough. I tried everything I could hear of for my cough, and was under the treatment of the best doctor in Georgetown, S. C. for a year, but could get no relief. A friend advised me to try Dr. King's New Discovery. I did so, and was completely cured. I feel that I owe my life to this great throat and lung cure." Its positively guaranteed for coughs, colds, and bronchial affections. 50c. & \$1. Trial bottle free at all druggists.

# Commissioner's Sale.

Morgan Circuit Court convened in extra session Monday with Judge D. W. Gardner, of Salyersville, presiding as special Judge. The purpose of the extra session was to dispose of certain civil cases in which the regular judge is disqualified from sitting by reason of kinship to the parties.

Warick May and wife, of Salyersville, visited Dorsa Keeton and family last week.

Mrs. Lucile Wilton, of Mt. Sterling, and Mrs. Nancy Farish, of Noblesville, Ind., attended court here this week.

Dr. Widener, of Louisville, is the guest of W. M. Kendall and family this week.

Edgar Nickell, son of Asa M. Nickell, was seriously but not dangerously scalded about the lower part of his body and lower limbs by upsetting a kettle of boiling water upon himself Thursday.

## SURPRISE PARTY.

A surprise party was given at the home of the Misses Moselete and Lula Walsh, Saturday Aug. 19th, in honor of Mrs. Garn Caskey, of Montecello, Ill., who with her children are visiting relatives here, also Mrs. Gus Walsh, who leaves Thursday to join her husband in Ill. At the usual hour dinner was served out on the lawn. There were about fifty-four present. We have not the space to give their names. After partaking of the sumptuous repast, Math West entertained the crowd with his camera. All report a pleasant time and join in wishing Mrs. Caskey and Mrs. Walsh a pleasant and safe journey home.

### LOMBARD PIANOS ARE THE BEST IN THE WORLD !!

Mrs. Helen M. Slaker, 244 Grand Ave., Aurora, Ill., says: "I cannot find words in the English language to express my appreciation to you for having sold me such a beautiful instrument. I really think it is the most beautiful case I ever saw, and the tone is simply grand. I shall be glad to give any testimonial, as I think the Lombard should take the lead."

Rev. Geo. Doubleday, Pres. Corpus Christi College, Galesburg, Ill., says: "We are using the Lombard in our College work at Corpus Christi, and it is a pleasure to recommend it. It is a beautiful instrument with a deep, sweet, rich tone."

J. W. Purviance, Editor McNairy County Independent, Selmer, Tenn., says: "The instrument (Lombard Piano) fills our most sanguine expectations. It is not only a rare beauty in its outward finish, but the tone is round, full, rich and sweet. Your firm has proven to be prompt and reliable in its dealings with me."

J. Ernest Paxson, Editor Press, Parkersburg, Pa., says: "I must say that the Lombard sent me is a beautiful instrument, and a credit to a standard firm. We are sorely satisfied."

R. S. Knapp, President Federal Charter Co., Washington, D. C., says: "We now realize after a careful and comprehensive trial of the Lombard by many musical artists of Washington, that it stands second to none, regardless of price or make. Every one who has tried this instrument is enthusiastic in its praise."

These are samples of hundreds of enthusiastic letters received in every mail.

WINCHESTER

Repeating Shotguns

USED IN THE U. S. ARMY.

The U. S. Army authorities know a gun; that is why, when they decided to equip some troops with repeating shotguns, they selected the Winchester in preference to all other makes. The experts of the U. S. Ordnance Board also know a gun; that's why, after submitting a Winchester Repeating Shotgun to all sorts of tests, they pronounced it safe, sure, strong and simple. If you want a shotgun—buy the one whose strength and reliability led the U. S. Army authorities to select it and the U. S. Ordnance Board to endorse it—that's the Winchester.

My Doctor Said

"Try Cardui," writes Mrs. Z. V. Spell, of Hayne, N. C. "I was in a very low state of health, and was not able to be up and tend to my duties. I did try Cardui, and soon began to feel better. I got able to be up and help do my housework. I continued to take the medicine, and now I am able to do my housework and to care for my children, and I feel as though I could never praise Cardui enough for the benefits I have received."

TAKE The CARDUI Woman's Tonic

Cardui is successful, because it is made especially for women, and acts specifically on the womanly constitution. Cardui does one thing, and does it well. That explains the great success which it has had, during the past 50 years, in helping thousands of weak and ailing women back to health and happiness.

If you are a woman, feel tired, dull, and are nervous, cross and irritable, it's because you need a tonic. Why not try Cardui? Cardui builds, strengthens, restores, and acts in every way as a special, tonic remedy for women. Test it for yourself. Your druggist sells Cardui. Ask him.
